

# HEIRLOOM STEIN

## MATERIALS

- 2842 The Des Stein
- 9599 Hydra Art Sponge
- C500-Fan4 Cobalt Fan Brush #4
- C500-R4 Cobalt Round Brush #4
- RB110 10/0 Detail Liner

## GLAZES

- HSC552 Jadeite
- HSC577 Spruce
- HSC565 Cinnamon
- HSC550 Rustic Brown
- HSC553 Reactive White
- HSC551 Egyptian Blue

## INSTRUCTIONS

1. Dust off the stein with a dry hydra art sponge.
2. Paint 1 coat of Rustic Brown on the handle, rim, beaded section around the top of the stein, and the base of the stein with a round brush.
3. Use a Fan Brush to apply 2 coats of Jadeite to the outside of the stein, covering the Rustic Brown. Be sure to paint the bottom of the stein with 2-3 coats of Jadeite.
4. Paint 2 Coats of Cinnamon inside of the stein.
5. Paint 1 thin coat of Spruce to the inside and outside of the stein.
6. Use a Detail Liner to apply Egyptian Blue to simulate drips around the rim and beaded band at the top half of the stein.
7. Load a dry Fan Brush with Reactive White. Blot the brush on a paper towel to remove excess glaze, then dry brush a layer of Reactive White over the outside of the stein.
8. No Clear Glaze is required, however in order to be food-safe the entire surface of the stein must be glazed, including the inside and base. Prior to firing, verify that there is no exposed bisque. Fire to Cone 06. Enjoy!

**NOTE:** Results will vary depending on application, as Terra Bella glazes are reactive. Each project made will be unique. Enjoy the exciting reveal when you unload them from the kiln!
