...

1. Staple fish template onto contact adhesive paper. Cut out, peel, and stick fish and lemon wedges onto your platter.
 2. Gently wipe your pottery with a damp sponge.
 3. Apply 1-2 coats of BLS-950 & 958 in circular brushstrokes around the fish.
 4. Paint 3 coats of BLS-931 around the rim, leaving the raised edge unpainted, and blend where the purples and blues meet around the inner rim of the platter.
 5. Using the Scraffito technique, scrape little lines with the chisel edge of a brush before the paint dries.
 6. Peel off contact paper. Paint fish and lemon wedges.
 7. Carve criss-cross marks on the fish and lemon wedges, then outline them with black Engobe.
- TIP: Thin out Engobe with water for easy and smooth application. Let dry.
8. Dip in HC-0004 clear glaze and fire to Cone 06.
