Supplies

Mason Jar Pitcher #2630

Liner Brush

Small Round Brush

Medium Round Brush

Pencil

Color

Arazmatazz BLS934 Black Swan BLS908

Banana Cream BLS937 Sunny Tuscany BLS901

Sweet Dreams BLS927 Snow Queen BLS905

Midnight Bleu BLS950 Moonglow HSS115

Apricot Stone BLS902 Dusty Clear Fairy Dust HSS005

Instructions

1. Use a pencil to lightly sketch 1.5-2.5 inch circles around the pitcher, leaving a space for lettering somewhere on the front of the pitcher.
2. Pour out piles of Sunny Tuscany, Banana Cream, Apricot Stone, and Snow Queen onto your paint palette.
3. Use a medium round brush to fill in the circles with Sunny Tuscany. While the paint is still wet, swipe in circular brushstrokes of Apricot Stone on the outside of the circle.
4. Fill in the center of the circles with Banana Cream.
5. Heavily load a medium round brush into Sweet Dreams and paint in short, expressive strokes around the penciled in circles. While the paint is wet, brush in strokes of Midnight Bleu. Use a medium brush loaded with Moonglow to blend the Midnight Bleu into the Sweet Dreams.
6. Add dashes of Dusty Clear inside the circles.
7. Paint the rim of the pitcher with Arazmatazz.
8. Paint the handle of the pitcher with Midnight Bleu.
9. When the circles are dry, lightly sketch a firefly inside the circle. The body is a teardrop, the head is a small circle, and the wings are two tear drops on either side of the body.
10. Sketch "Shine" onto the pitcher. Use a liner brush and Snow Queen to fill in the letters.
11. Dip a pencil eraser in Black Swan and add a dot to the head of each firefly.
12. Use a liner brush to add black details- firefly wings, body, and black dashes randomly along the pitcher.
13. Splatter the pitcher.
14. Clear glaze and fire to cone 06.
