

MATERIALS

CC-1984 Lighted Pineapple Lamp
9599 Hydra Art Sponge

C500-Fan4 Cobalt Fan Brush #4
RB110 Detail Liner 10/0

GLAZES

SC0488 Camel Back
SC026 Green Thumb

SC024 Dandelion
SC025 Crackerjack Brown

INSTRUCTIONS

1. Paint 1 coat of Camel Back all over the pineapple using fan brush. Let the paint dry for a few minutes, then take a damp Hydra Art Sponge and rub off the excess glaze so that the brown is only in the creases of the pineapple.
2. Repeat this step using Green Thumb.
3. Using fan brush, water down some Dandelion & paint 2 thin coats all over the pineapple.
4. Water down Green Thumb & paint 2 thin coats on the leaves. You can use a Detail Liner and a Fan brush for this part. Let the glaze dry.
5. Water down Crackerjack Brown & lightly brush around the entire pineapple including the leaves & let dry.
6. Go over the leaves lightly with watered down Green Thumb one more time.
7. Make sure all the holes are clean and not clogged up with glaze before firing.
8. Clear Glaze and fire to Cone 06! Let this Poppin' Pineapple Lamp brighten up your day!
