2. With a pencil, sketch the eyes, a curved mouth line, and a carrot nose of the snowman on one side of the latte cup.

3. Paint the carrot nose with 3 coats of Neon Orange. With a detail brush, outline and accent the carrot using Dark Black.

4. With a small textured sponge, at the two ends of the mouth, lightly sponge small circles using Bright Honeysuckle.

5. Paint the eyes and the dots used for the mouth with a detail brush and Dark Black.

6. Use a pencil to sketch a ring around the latte cup about 1/2" from the bottom.

7. Alternate using 3 coats each of Neon Green and Fruit Punch to paint stripes along the bottom.

8. Paint the handle of the latte cup with 3 coats of Fruit Punch.

9. Paint the inside of the latte cup with 3 coats of Light Tidepool. Set aside to dry.

Saucer : 1. With a detail brush and 3 coats of Light Tidepool, paint simple snowflakes in the center ring of the saucer.

2. Paint the outer ring and bottom surface of the saucer with 2-3 coats of Dark Black. Set aside to dry.

Mug : 1. Roughly 1/2" from the top edge of the mug, use a pencil to sketch a wavy line around the mug. Then, on one side of the handle, sketch a small holly leaf with 3 circles as berries.

2. With 3 coats of Neon Green, paint the holly leaf.

3. Paint the area above the wavy line with 3 coats of Light Tidepool. Be sure to paint around the holly leaves.

4. Paint each of the berries with 3 coats of Fruit Punch.

5. With a detail brush and Dark Black, outline the holly leaves and berries. Also, paint a thin line down the center of each holly leaf.

6. Paint the area below the wavy line, and the handle, with 2-3 coats of Dark Black.
