INSTRUCTIONS

1. Use your fan brush to create an ombre gradient starting with **Limoncello** at the top fading to **Sangria** at the bottom. This will cover the entire planter. Make sure to do 2-3 coats.
2. Once dry, paint all 4 speakers with 3 coats of **Blue Lagoon**. Just paint the inside circles of the 2 big speakers.
3. Then using the colors on the supply list, paint in all the details, buttons, tape player etc. Be sure to paint 2-3 coats using your detail liner brush and #2 round brush. Do not paint the rings around the 2 big speakers yet.
4. Next outline the front of the boombox and the handle with 2 coats of **Arazmatazz** using your Detail Liner Brush.
5. Then once the 2 big speakers are completely dry, take a pencil and lightly draw a lightning bolt shape diagonally across the circles.
6. Paint 2-3 coats of **Apricot Stone** and **Sangria** on the lightening bolts.
7. Then outline the speakers with your detail liner brush using 2 coats **Arazmatazz**.
8. Go ahead and paint the outer rings of the speakers with 2 coats of **Lime**.
9. Next paint the knob on the side of the boombox with 2-3 coats of **Apricot Stone**.
10. Finally with your detail liner brush, outline the buttons, speakers etc and add any black detailing marks on the screens and speakers.
11. Clear Glaze and **Fire to Cone 06!** Enjoy this totally bodacious boombox planter!
