

MATERIALS

3249	Froggy Fruitfly Trap	DOTG01	Dotting Gyre
9599	Hydra Art Sponge	Assorted Brushes	

GLAZES

EL158	Pine Needles	FN232	Sun Yellow
FN009	Black	S2724	Lotus Blossom
FN020	Medium Green		

INSTRUCTIONS

1. Wipe down the frog with a dry Hydra Art Sponge.
2. Use a soft fan brush to paint 2 coats of Medium Green inside the frog body, under the lid, and on the bottom of the base.
3. Paint 2-3 coats of Sun Yellow on the belly and eyes of the frog.
4. Use a soft fan brush to paint 2 coats of Pine Needles on the outside of the frog's head and body. Allow time to dry.
5. Paint 1 generous coat of Lotus Blossom over the Pine Needles.

TIP: Before painting, use a popsicle stick or the handle of a paintbrush to stir the glaze thoroughly, making sure to lift and mix in any settled crystals from the bottom of the container for an even distribution.

6. Dip the spoke #7 on the Dotting Gyre into Black. Add a dot in each pupil of the eyes.
7. Make sure the entire inside and outside of the Frog Fruitfly Trap is fully covered with at least 2 coats of glaze to ensure it is completely sealed and water tight.
8. No clear glaze required! Fire to cone 06. Enjoy!
